KEY PROJECTS

FarioCMS — Corporate Content Management System

demo.envisionalive.com/farioCMS

Developed a dynamic corporate CMS enabling businesses to manage website content through an intuitive admin panel — including page management, sliders, banners, news, events, galleries, testimonials, and a file manager.

HTML5

CSS3

JavaScript

Bootstrap 5

PHP

MySQL

FarioCampus — Educational Management System

demo.envisionalive.com/fario-campus

Designed and developed a campus CMS for schools and colleges to manage departments, courses, faculty, exam results, downloads, events, and academic information through a powerful admin dashboard.

HTML5

CSS3

JavaScript

Bootstrap 5

PHP

MySQL

FarioCommerce — E-Commerce CMS

demo.envisionalive.com/fario-ecommerce

Built a complete e-commerce CMS with product & category management, shopping cart, checkout, payment gateway integration, banners, and an easy-to-use admin panel for online stores.

HTML5

CSS3

JavaScript

Bootstrap 5

PHP

MySQL

Candidate Assessment & Recruitment Platform

interview-questions.infinityfree.io

Designed and developed an online recruitment platform with multiple assessment rounds, coding challenges, automated scoring, and a secure admin dashboard to manage candidates and reports.

React.js

Tailwind CSS

PHP

MySQL

JavaScript

Jeyam Designers — Construction Company CMS

Built a dynamic CMS-powered business website enabling administrators to manage services, projects, and company information through a centralized admin panel — all content rendered dynamically.

PHP

Filament

MySQL

Tailwind CSS

Bootstrap 5

JavaScript

Leave & Task Reporting System

Developed an enterprise workflow application for employee leave management and task tracking, featuring automated leave approval workflows, task assignment, progress monitoring, daily work reporting, and role-based dashboards.

PHP

Filament

MySQL

Tailwind CSS

Personal Portfolio Website

github.com/varshinikamala

Designed and developed a modern personal portfolio with smooth animations, responsive layouts, and an integrated contact form using EmailJS/PHPMailer.

React.js

Tailwind CSS

Framer Motion

PHP

PHPMailer

CORE COMPETENCIES

Frontend Development — Responsive, interactive UIs using React.js, Tailwind CSS, JavaScript, Bootstrap, and HTML/CSS.

Backend Development — Secure server-side apps, REST APIs, authentication, and business logic using PHP & MySQL.

Database Design — Efficient database structures, optimized queries, and secure data management using MySQL.

Full Stack Solutions — Complete web applications from UI design to deployment, ensuring performance & scalability.
